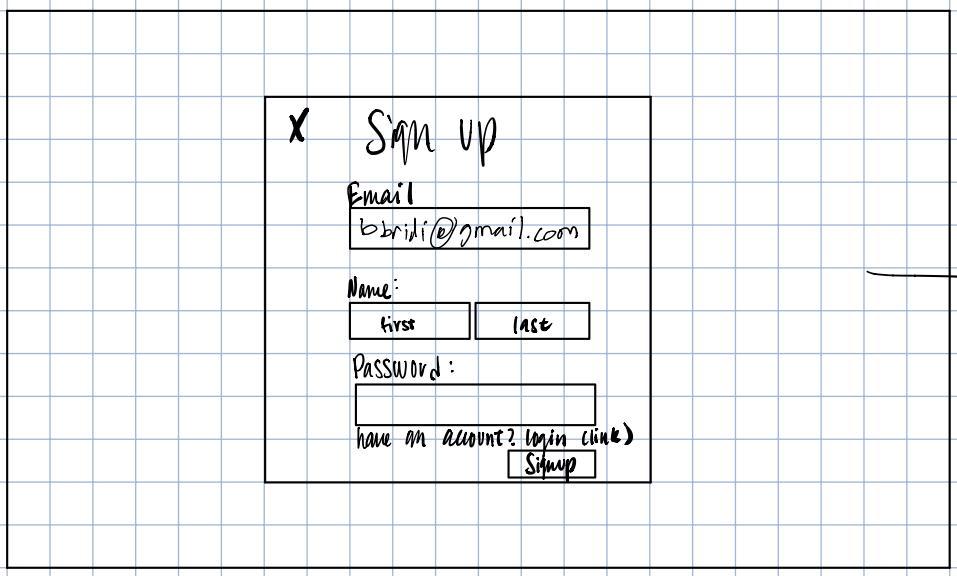
→ How to incorp. the signup link? (I kinda dont like how I have it)

→ X is button/link back to landingpage.html

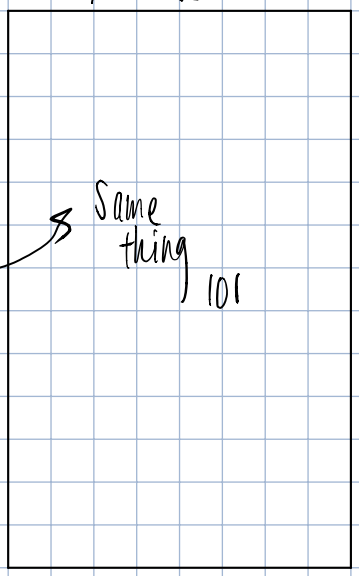
↳ maybe: ←signup [Login]

Signup:

web



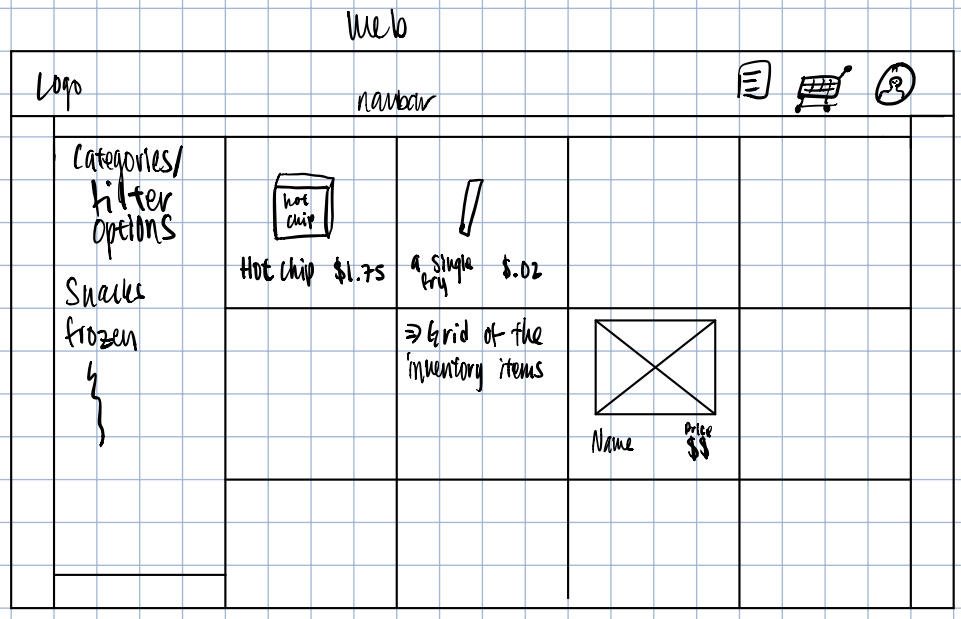
mobile

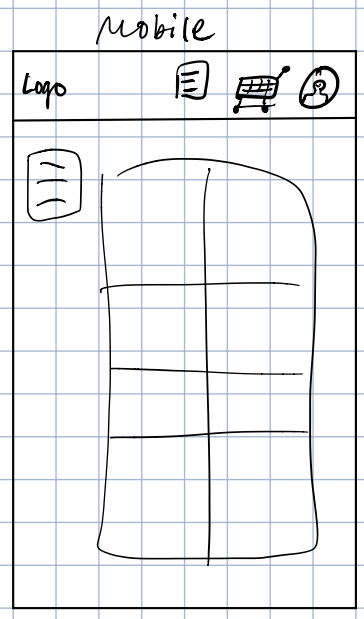


→ Either fix vertical spacing | everything fits comfortably on one-screen or make it scrollable

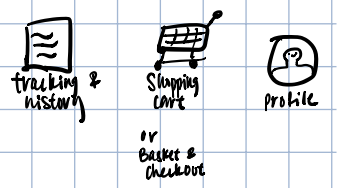
→ confirm password form box

Order:

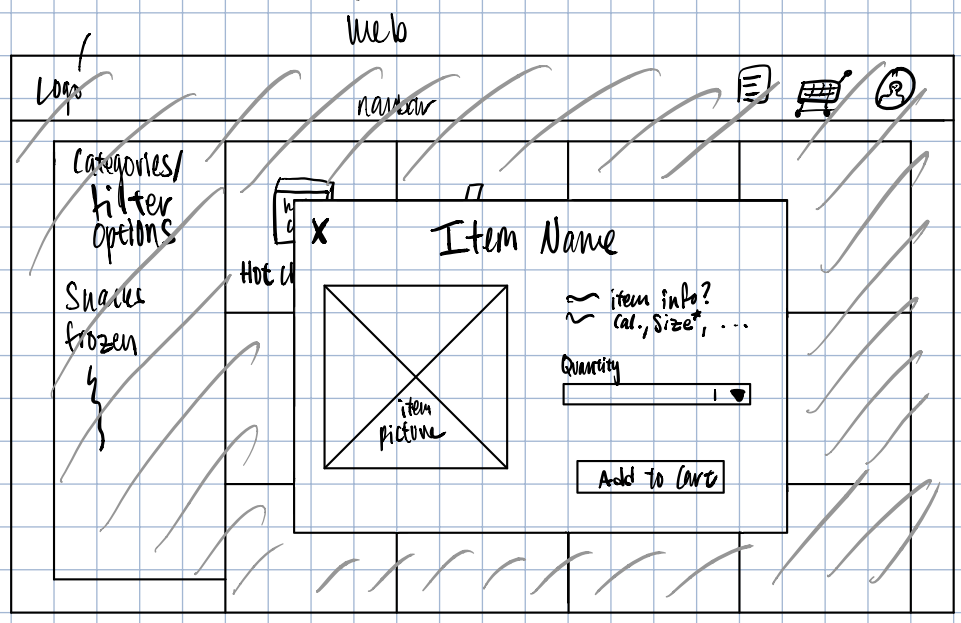


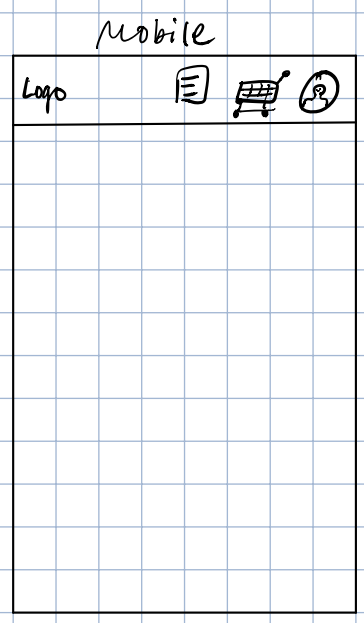


→ Jet probably has a different vision for this one
→ Should change the icons to have small text underneath labeling them
⇒ We need a logo



→ Upon clicking an item:





→ Everything gets greyed out
→ Quantity is a number drop-down bar
→ Clicking on "X" or greyed out area will restore the page to normal order page
